Court: United States District Court – [Insert Division Here]

Date: November 07, 2025

Explanation of Financial Hardship

I, Jonathan Daniel Clements, submit this statement in support of my request to proceed in forma pauperis in federal court.

I currently have no income, no employment, and no access to personal financial resources. My work, assets, and lawful trust property have been continuously interfered with or taken by the State of Arkansas, including but not limited to vehicles, documents, and legal protections. These actions have directly contributed to my present financial hardship.

Despite my qualifications, certifications, and decades of public service—including whistleblowing, authorship, and technology development—the State of Arkansas and its affiliates have created an environment where I am systemically blocked from gaining employment. No matter where I seek work, I am refused. The ongoing pattern of harassment, legal retaliation, and blacklisting has left me unable to support myself or secure basic needs through conventional means.

Therefore, I respectfully request that the court waive all filing fees and allow me to proceed without prepayment under federal law.

Respectfully,

Jonathan Daniel Clements
